

Bring maximum versatility to food prep using less counter space.

Introducing our most compact versatile all-in-one food prep system, the Saber King® Mini. Saber King® Mini not only provides flexibility to accommodate ever changing menus, but also consolidates all your current slicers into one unit. Saber King® Mini was designed with color-coded interchangeable blade sets to quickly identify food type and cut; allowing operators to slice, dice, wedge and chop produce in one single motion.

- 40% smaller footprint than the Saber King®
- Eliminates up to five different slicers
- Same slicing capacity as the Saber King® for most produce
- Patented blade covers improve safety and are easy to clean

Food prep plays a critical role when it comes to operational efficiency and speed of service. Operators spend countless hours preparing food often using expensive equipment tailored for one product. **Saber King® Mini is an all-in-one food prep system designed with a smaller footprint, that includes a multi-purpose chassis with easy interchangeable blade sets to accommodate different food types and cuts.**

Smaller Footprint

Saber King® Mini is **40% narrower and lighter weight than the Saber King®** – eliminating up to five different slicer, using less counterspace.

Save Money, Time and Labor

Slice multiple products using one single fixture. Maximize productivity up to **30 minutes of labor savings per day** during operation and cleaning.

Faster Prep Time, Minimal Waste

Improved slice consistency increases speed and response time when cutting large volumes of food, **making food prep time faster and more efficient** with minimal waste.

Improved Safety

Our **patented blade covers, blue guided touch points and secondary safeguard latch** help protect operators from the cutting blades when slicing and cleaning, **lowering the risk of injury during use.**

Easy to Clean

Cleaning blade cartridges are safe and easy thanks to the integrated handles, **giving operators a firm grip away from the blades** when cleaning.

Easy to Use

Help to quickly identify any food type with **easy interchangeable color-coded blade cartridges.** Quickly switch between different types of food and cuts to **provide maximum versatility and keep up with ever-changing menus.**
